DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32, 33, 34 and 35 (renumbered 1-32, 34, 35 and 33, respectively) are allowed.
2. The following is an examiner's statement of reasons for allowance for independent claim 1: The prior art fails to teach the method for automatically recognizing one or more structures in digitized image data as claimed. Specifically determining sub-jets of the image graph at the nodes defined by its structure, said sub-jets corresponding to at least part of the determined sub-jets of the specific reference graph, and the projection of the net-like structure of said specific reference being varied until a graph comparison function which compares the jets of the image graph with the corresponding jets of said specific reference graph becomes optimal, associating the structure or each structured with reference image corresponding to the reference graph for which the graph comparison function is optimal with respect to the optimal image graph determined for said reference graph. These features in combination with other feature are not disclosed in the prior art. Claims 2-35 depend on the independent claim 1. Therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
